TENREHTE TECHNOLOGIES

GRADUATES FROM THE CLEAN ENERGY INCUBATOR AT

ROCHESTER INSTITUTE OF TECHNOLOGY

Rochester Institute of Technology's Clean Energy Incubator
celebrates the graduation of six portfolio companies!

ROCHESTER, NY USA – November 14, 2012 – Tenrehte Technologies, Inc., a leading producer of wireless energy efficiency products, is pleased to announce that our company will be graduating from Rochester Institute of Technology's Clean Energy Incubator.

The role of the Clean Energy Incubator (CEI) is to assist early stage clean energy companies in product development, business and marketing planning and technology commercialization. The incubator is one of four statewide and is a part of New York State's clean energy initiative. "Each of the businesses represent RIT's finest graduates from our Venture Creations and Clean Energy Incubators," said Mark Coleman, Manager of Technical Development of Clean Energy Incubator. "We are dedicating this special evening, November 14th, to celebrating their work, passion, and success."

In addition to Tenrehte Technologies, the five other portfolio companies graduating this year include Vnomics, SweetWater Energy, ThingWorx, and Exiscan.

"Tenrehte is graduating from RIT!" said Jennifer Indovina, CEO of Tenrehte. "This is a major milestone for the company and the whole Tenrehte team. Our company is growing, gaining traction with domestic and international customers, and adding more products to our award winning PICOwatt® product line; for Tenrehte the best is yet to come."

About Tenrehte Technologies
Tenrehte Technologies, Inc. produces solutions to enable wireless connectivity in smart grid devices, ultimately improving people's lives and saving them money. Tenrehte creates products that will empower consumers to take a more active role in the grid, eliminate wasted energy costs and reduce their carbon footprint. The company is headquartered in Rochester, NY USA. More information can be found at: www.tenrehte.com

About Clean Energy Incubator
The Clean Energy Incubator (CEI) is a joint industry outreach effort by the Golisano Institute for Sustainability and RIT's Venture Creations business incubator, which serves as home for CEI. The role of CEI is to assist early stage clean energy companies in product development, business and marketing planning and technology commercialization. The incubator is one of four statewide and is a part of New York State's clean energy initiative. CEI was established in 2009 with a $1.5 million grant from New York State Energy Research and Development Authority (NYSERDA). Learn more about the Clean Energy Incubator at: www.rit.edu/gis/outreach/clean-energy/

About Rochester Institute of Technology
The Rochester Institute of Technology (RIT) community engages and motivates students through stimulating and collaborative experiences. RIT's mission is to provide technology-based educational programs for personal and professional development. RIT rigorously pursue new and emerging career areas. RIT develops and delivers curricula and advance scholarship relevant to emerging technologies and social conditions. The RIT community is committed to diversity and student centeredness and is distinguished by its innovative and collaborative spirit.

Internal and external partnerships expand RIT's students' experiential learning. RIT is committed to mutually enriching relationships with alumni, government, business and the world community. Teaching, learning, scholarship, leadership development, and student success are its central enterprises. Learn more about the RIT at: www.rit.edu
